

# Eng. Wajdi Mohammed M. Al-Hamidi

**Address:**

Al-Attras N, Shamlan St, Sana'a.

**Phone:**

+967 775 592 534 - +967 737 043 030

**Email:**

eng.wajdiaalhamidi@gmail.com

## ❖ **Education:**

- 2021-2020
  - Bachelor's degree in Information Technology from Sana'a University with a GPA of %85.
- 2015-2014
  - High school diploma from Al-Hasan Bin Ali School with a grade of %92.

## ❖ **Work Experience:**

- Freelancing
  - Duration: 2019 – Present (Five Years)
  - Position: System Developer & Application Developer & Technical Support Representative.
  - Responsibilities:
    - Developed an Android application that provides integrated social media platform groups using its own API.
    - Created a donations application for a website developer.
    - Additionally, developed several personal applications.
    - Built API services from scratch for multiple companies and organizations using programming languages and frameworks: {PHP, Laravel}.
- OBIC Company
  - Industry: Systems & Software Development
  - Duration: 2024 – 2025 (One Year)
  - Position: Api Developer & Application Developer.
  - Responsibilities:
    - **API Development & System Architecture**
      - Designed and implemented **secure and scalable APIs** for multiple front-end applications, including **Flutter and React**.
      - Developed APIs for five different systems, ensuring seamless data retrieval and **optimized performance** for front-end applications.
      - Implemented **API versioning** to maintain backward compatibility and improve system scalability.
      - Applied **best practices in API development**, continuously refactoring and optimizing code to enhance performance and efficiency.
      - Worked extensively with **authentication systems**, including:
      - **JWT, Sanctum, and Passport** to secure APIs and manage authentication effectively.
      - Utilized **Repository and Service Patterns** in Laravel to enhance **code modularity, maintainability, and reusability**.
      - Implemented **rate limiting, request validation, and other security measures** to protect APIs from abuse and unauthorized access.
      - Integrated **real-time event broadcasting and notification services** using **Pusher** and WebSockets to improve user experience.
      - Managed **pagination, ledger, and other key data handling concepts** to optimize API response efficiency.
      - Worked with **Laravel migrations** to structure and maintain database integrity efficiently across multiple projects.

- **Server & Database Management**
  - Managed the **company's server**, ensuring **deployment, maintenance, and troubleshooting** of all projects.
  - Handled **project deployments** on the server and resolved any post-deployment **errors or performance issues**.
  - Administered **databases and user access control**, ensuring proper permissions and security measures.
  - Configured and managed **server integrations** with external services like **GitHub, CI/CD pipelines, and cloud platforms**.
  - Monitored server health, performed regular **backups, optimizations, and security updates** to ensure high availability and reliability.
- **Team Collaboration & Code Management**
  - Led **team collaboration through GitHub**, managing **repository structures, access control, and branch policies**.
  - Ensured smooth **code integration, resolving merge conflicts, and preventing workflow disruptions**.
  - Enforced **best practices for version control**, ensuring efficient collaboration and proper tracking of project progress.
  - Worked closely with developers to maintain **code consistency, security, and adherence to best coding standards**.

- **IT & Project Management**

- Actively participated in the **analysis and design** process with technical analysts and project teams to align API development with business needs.
- Temporarily took charge of the **IT department**, overseeing team performance and administrative tasks to ensure smooth departmental operations.
- Provided **technical support and problem resolution** for internal and external users.

- **Flutter Experience**

- Over the past year, I have explored the **Flutter framework**, successfully building multiple **proof-of-concept mobile applications**.
- Gained hands-on experience with **widgets, state management, platform-specific integrations, and debugging**.

➤ Smart Enterprise Company" (formerly known as Quiks)

- Industry: Systems & Software Development
- Duration: 2023 – 2024 (Six Month)
- Position: System Developer & Application Developer & Technical Support Representative.
- Responsibilities:
  - Development on an integrated sales system built with Visual Basic.
  - Creating reports using BI Publisher.
  - Providing technical support and resolving customer issues through the company's CRM System.
  - Training in system development using Oracle Apex for a continuous period of four months, enabling me to create a system with its core functionalities and integrate it with the previously handled BI Publisher reports.

➤ Exeer Systems

- Industry: Systems & Software Development
- Duration: 2022- 2023 (one year and four month)
- Position: System Developer & Application Developer & Technical Support Representative.
- Responsibilities:
  - Developed an Android application for a sales system.

- Developed an Android application for car rental system and an Android application for online ticket booking for transportation companies.
- Developed an Android application for a postal delivery system.
- Completed various tasks in website development using the following languages and frameworks: HTML, CSS, ASP.NET.
- Built an integrated point of sale system for a restaurant with detailed and summary reporting capabilities.
- Modified doctype in the ERPNEXT system, customized fields and designs to meet the requirements of different clients, and created reports using HTML, CSS, and JINJA, while integrating them with the system.

#### ❖ ***Summary of Specialization Skills:***

---

- Summary of Specialization Skills:
- Network Management & Troubleshooting: Strong ability to design, manage, and troubleshoot networks, ensuring seamless system operations.
- Software Development & Problem-Solving: Expertise in identifying and resolving programming issues efficiently.
- Data Analysis & IT Project Management: Experienced in analyzing complex datasets and managing projects with structured methodologies.
- Technical Documentation & Reporting: Skilled in drafting comprehensive technical reports and system documentation.
- Digital Marketing & Business Strategy: Intermediate knowledge in IT project management and digital marketing strategies.
- Database Management: Proficient in working with various database systems, including SQL, MySQL, SQLite, Access DB, MariaDB, MongoDB and Oracle.
- Programming Languages: Strong command over C++, C#, HTML, CSS, JavaScript, PHP, and Java.
- Application Development:
  - Java: Advanced proficiency in developing Android applications.
  - Flutter: Foundational knowledge with hands-on experience in building mobile applications.
- Frameworks & Web Development:
  - Extensive experience with Laravel (versions 8-11) for backend development.
  - Familiarity with ASP.NET and frontend technologies.

#### ❖ ***Additional Skills:***

---

- Technical Proficiency:
  - Advanced user of Microsoft Office Suite (Word, PowerPoint, Excel, Access).
  - Skilled in graphic design tools such as Photoshop, Illustrator, and InDesign.
- Collaboration & Team Management:
  - Strong ability to work independently and as part of a dynamic team.
  - Experience managing teams using GitHub and version control best practices to ensure seamless code integration and collaboration.
- Communication & Leadership:
  - Excellent verbal and written communication skills in Arabic (native) and English (fluent).
  - Strong persuasion and negotiation skills, with the ability to present technical concepts clearly.
- Critical Thinking & Adaptability:
  - Quick learner, adaptable to new technologies, and capable of working under high-pressure environments.
  - Strong analytical and problem-solving mindset, ensuring efficient troubleshooting and process optimization.

**❖ *Languages:***

---

- Arabic (Native language).
- English (Excellent proficiency).

**❖ *Courses and Certifications:***

---

- Online CCNA course in progress.
- Project Management from Alison.
- Fundamentals of Digital Marketing from Google.
- Basics of Graphics Software {Photoshop, Illustrator, InDesign} from the Student Union and Stand Ford Institute.

**❖ *Hobbies:***

---

- Arts: Writing, drawing, and reading.
- Sports: Chess, football, and basketball.
- Entertainment: Language learning, cooking, and traveling.
